**Re:        *Ex Parte Notice***

*Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions*, GN Docket No. 12-268

Dear Ms. Dortch:

On April 15, 2013, Kathleen Ham, Christopher Wieczorek, Steve Sharkey, Nelson Ueng (by phone), Michael Amend (by phone), and Karri Kuoppamaki (by phone) of T-Mobile USA, Inc. ("T-Mobile"); Suresh Borkar and Ken Zdunek of Roberson and Associates, LLC (on behalf of T-Mobile); and Trey Hanbury of Hogan Lovells US LLP (representing T-Mobile), met with John Leibovitz, Paul Malmud, Blaise Scinto, AJ Glusman, Madelaine Maior, Chris Helzer, and Tom Peters (by phone) of the Wireless Telecommunications Bureau; Gary Epstein of the Incentive Auctions Task Force; Robert Weller, Matthew Hussey, and Martin Doczkat of the Office of Engineering and Technology; and Evan Kwerel of the Office of Strategic Planning and Policy Analysis.

As described in the attached slides, the T-Mobile representatives discussed a technical analysis of T-Mobile's proposed 35x35 MHz band plan for the spectrum recovered in the incentive auction. T-Mobile's representatives also discussed the importance of interoperability and offered to discuss the issue in a more in-depth manner consistent with T-Mobile's comments on the topic.

Pursuant to Section 1.1206 of the Commission's rules, an electronic copy of this letter is being filed for inclusion in the above-reference docket.

Respectfully submitted,

*/s/ Trey Hanbury*

Trey Hanbury  
Counsel to T-Mobile USA, Inc.
